Protocollo: 2892/2024/SL/fa

Rome, 6th december 2024

To President of IG Metall

Christiane Benner

Christiane.Benner@igmetall.de

Dear friends,

Fiom stands alongside Volkswagen workers in the just fight to keep their jobs and against the wage cuts that the company wants to impose.

Volkswagen's attack is an attack to the heart of industrial relations in Germany and in Europe.

For these reasons we support the warning strikes organised by IGMetall and we will be present in Germany with a delegation of Fiom Cgil starting from the strike on Monday 9th to bring our solidarity during the mobilisation.

The fight against multinational's greed that are not reinvesting their enormous profits in research, innovation and employment development but distributing dividends is a fight that unites the union throughout Europe and worldwide.

This is the time to join forces to affirm a new model of democratic, socially and environmentally sustainable development based on the recognition of collective bargaining and union freedoms.

United we will win!

In solidarity

Fiom-Cgil national secretary
Samuele Lodi
